

Thank you for downloading the Ten Plagues printable of 2017.

Please do not give this away to others. Rather, please send them to www.TorahSisters.com to download their own copy so they can see other great freebies I have for them.

There are numerous ways to use the cut outs below. You can glue them onto craft sticks or envelopes or anything you want. Laminate them or print on card stock to make them more sturdy.

Then use them to help keep your kids interested while you tell the story of the Exodus during your Passover celebration.

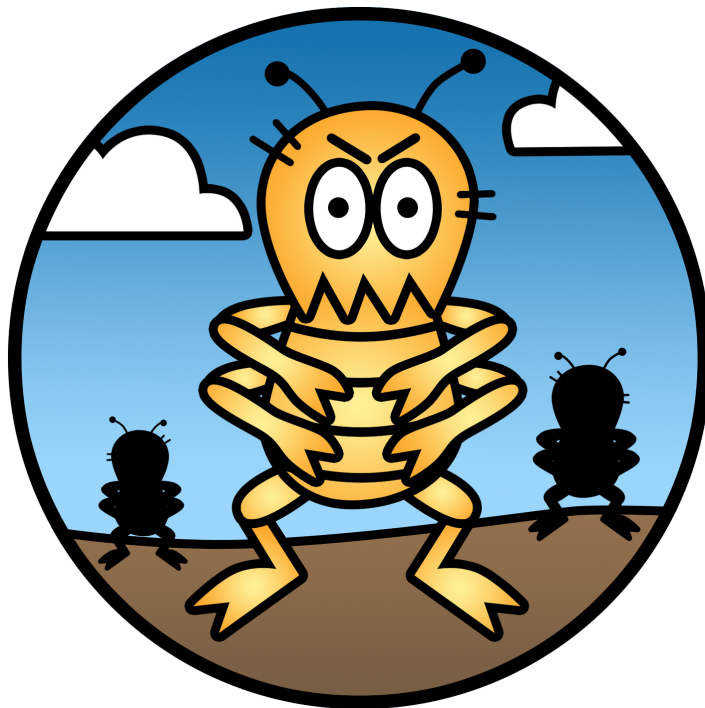

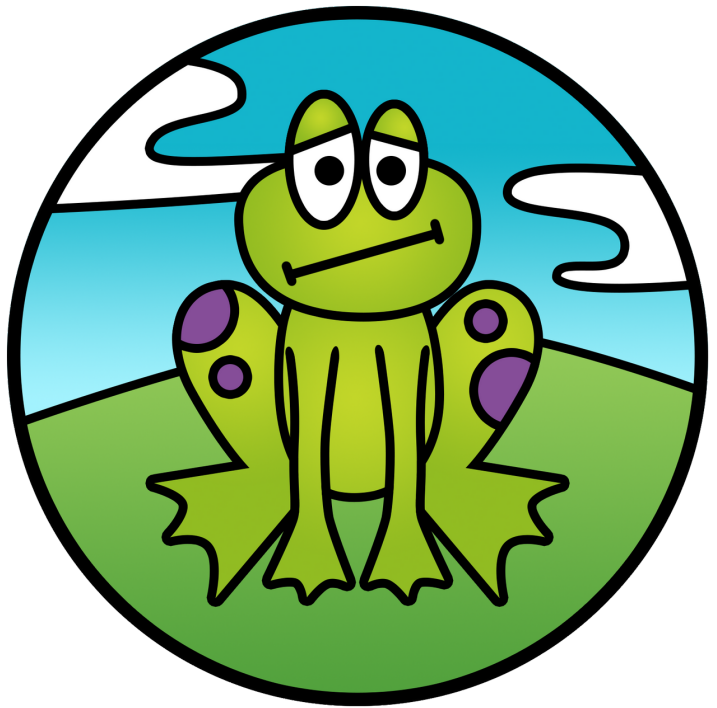

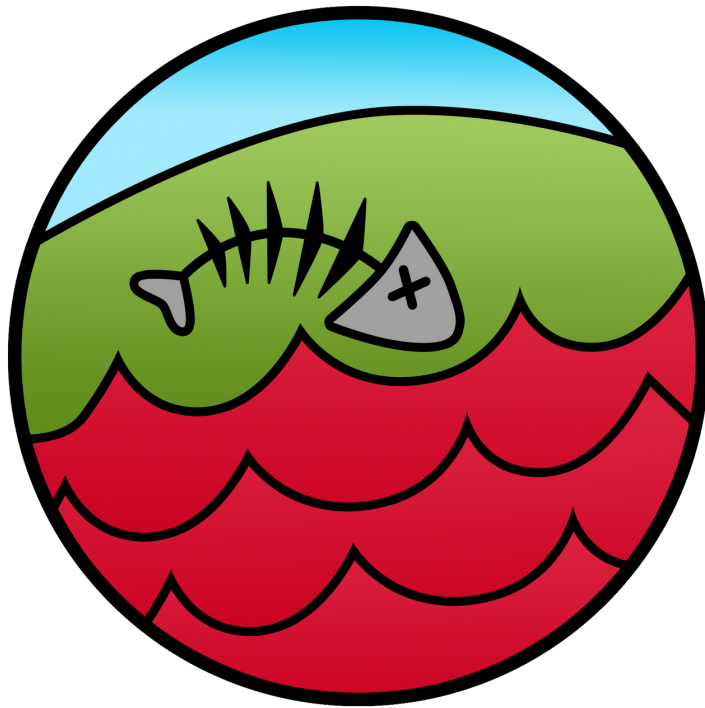

You can have the kids help you act out the story by giving each kid a card to hold up when it is their turn.

You can even use them for a game, practice putting them in order, or any number of variations. Be creative and have fun!

Enjoy!,
Amy Guenther
